

Earn a Graduate Certificate in Agricultural Leadership

12 credits • Offered in-person and online

The Agricultural Leadership certificate provides individuals with foundational knowledge in leadership theories and concepts that include entrepreneurial leadership and innovation. Students who complete the Certificate will enhance their capacities to effectively identify and strategically act on opportunities for change and innovation across any professional or community environment.

Coursework (3 credits each):

ALC 509 Team and Organizational Leadership

ALC 510 Entrepreneurial Leadership in Agriculture and the Life Sciences

ALC 511 Principles and Applications of Organizational Innovation

ALC 522 Communicating Knowledge in Agriculture and the Life Sciences
